

EDUCATION

Shridevi Institute of Engineering and Technology, Tumkur Bachelor of Engineering - Information Science; CGPA: 8.26	Dec 2022- Sep 2026
Sapthagiri Pre-University College, Tumkur PUC -Science(PCMB); Percentage: 78%	Mar 2021- Apr 2022
St. Rita's High School, Kunigal SSLC; Percentage: 88%	Apr 2019- Mar 2020

SKILLS SUMMARY

- **Programming Languages:** Python, SQL, Java, HTML, CSS, JavaScript, C++, C
- **Technologies/Frameworks:** Pandas, NumPy, Express.js, React.js, Node.js
- **Tools:** Git & GitHub, Power BI, Tableau, MySQL, DSA in C++
- **Platforms:** PyCharm, Jupyter Notebook, Visual Studio Code
- **Soft Skills:** Communication, Self-Learning, Adaptability

INTERNSHIP EXPERIENCE

Full Stack Web Development Intern — DevTown — Remote — LINK	Aug 2024- Oct 2024
• Completed 3-month intensive training and internship in Full Stack Development covering HTML, CSS, JavaScript, ReactJS, Node.js, Express, and MongoDB. • Built full-stack projects like Zomato Landing Page and BookMyShow Clone showcasing responsive UI and dynamic functionality. • Gained hands-on experience with REST APIs, Git/GitHub, and end-to-end development workflows. • Enhanced debugging and problem-solving skills through live coding sessions and project-based mentorship. • Collaborated in team-based development tasks, Learned deployment and hosting techniques.	

PROJECTS

Zomato Landing Page Clone — LINK	Oct 2024
• Built a responsive landing page clone of Zomato using HTML and CSS, replicating key sections like navigation, hero banner, and collections. • Applied modern UI/UX practices with media queries to ensure smooth experience across desktop and mobile devices. • Optimized layout and assets for faster loading and better performance using lightweight styling techniques.	
MERN Stack Restaurant Reservation — LINK	oct 2024
• Developed a full-stack app using MongoDB, Express, React, and Node.js for real-time restaurant booking. • Implemented features like user authentication, table availability tracking, and responsive UI for seamless reservations. • Used RESTful APIs and Axios for smooth client-server communication and dynamic data handling	
Online Smart Test Centre — LINK	Present
• Designed a secure online examination system using MERN stack with AI-based proctoring (facial recognition, noise detection, ID verification). • Implemented automated grading and real-time analytics to streamline evaluation. • Enabled remote exam access with real-time monitoring to prevent cheating and impersonation.	

CERTIFICATES

• Python (Infosys SpringBoard and Devtown) – Certificate	Mar 2025
• DSA in C++ (Prepinsta) – Certificate	July 2025
• Full Stack Web Development (Devtown) – Certificate	July 2025
• Git and GitHub (Devtown) – Certificate	May 2025
